

**CABLE HANDLING EQUIPMENT**

**RODDING EQUIPMENT**

**Hand Rods - PHR22-3M**  
Polycarbonate Hand Rods

These 22mm Polycarbonate hand rods 3 metres long with brass fittings are adaptable with Telstra type rods.  
The new polycarbonate provides the rigidity required for long placements and molecular flexibility to avoid splintering when squashed or kinked.  
All accessories are available as with the FRD sets.

**Handy Coils**

- FRD5-30
- FRD5-60
- FRD7-60
- FRD7-80

**Continuous fibreglass Rod Coils**  
5mm & 7mm Handy Coils for light electrical works.

These come in lengths as required by the customer but please note 5mm does not come with a trace wire.

**Rhinorod**  
**Continuous Fibreglass Rod Coils**

Fiberglass rod in continuous coils for long distance rodding of conduits. The rod is available in 2 sizes 9 & 11mm and comes with a 1mm trace wire in the centre and a 1.5mm layer of outer polyethylene sheathing for durability.  
The complete set comes with a joining kit of 2 joiners, 1 replacement eye, threaded end & glue plus fittings.

**Ordering details: Add rod length to Part Number e.g. FRD9-150**

PART No.	Rod Size	125	150	200	250	300
