

**TOOLS**

**HEATING TOOLS FOR HEAT SHRINK TUBING**

**HG 2310 LCD**  
 Powerful, electronically controlled professional hot air gun with continuously adjustable air flow and temperature control.  
 The tremendous power of the HG 2310 LCD makes it suitable for all hot-air jobs. The precision temperature display permits work on materials that respond critically to heat.

PART NO.	DESCRIPTION
2294	Handy Jet
PRI2000	Gas Bottle
BJ2146	Burner & Stem Heat Shrink Suit PRI2000

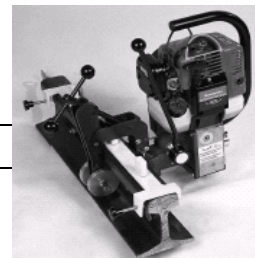

**STEINEL HOT AIR GUNS**

The HG2310 LCD "Professional Series" model is electronically controlled with continuous adjustable air flow. The tremendous power of this gun makes it suitable for all hot air jobs. The precision temperature display is ideal for contractors and OEM's alike.

PART NO.	DESCRIPTION
HL1910E	2000W 3 speed 50-600 deg Celsius
HG2310 LCDC	2300W LCD readout - variable speed 50-650 deg Celsius (PROFESSIONAL)

**RAIL DRILL**

This light, easy-to-handle & compact universal drilling machine which can be used in overhead conductor installation, for rail contact systems, as well as in control & safety engineering & track laying.

PART NO.	DESCRIPTION
SBM-V	Rail Drill - 2 Stroke Petrol with Case & Tools

**EARTH/GROUND TESTER**

The handy earth tester, EST201 is a small handheld unit that can complete the 2-pole resistance measurement & the 3-pole earthing resistance measurement, as well as a ground to neutral impedance test.

PART No.	DESCRIPTION
EST201	Earth/ground tester, 2 pole resistance & 3 to 4 pole ground / earth resistance measurements @128Hz. (kit includes required cables, leads, ground stakes, carrying case & belt)
